

## Corrections and Clarifications

### Police Station Reforms Consultation Response

#### Fixed Fees

- There are some typographical errors in Annex A:
  - **Sunderland/Houghton** fee was incorrectly listed as **£204** – the correct fee for this scheme is **£197**
  - **Bangor** was **£232** – the correct fee is **£244**
  - South East Northumberland fee was £174. The correct fee is £191 (and escape, £573)
  - Aldershot / Petersfield was £301. The correct fee is £291 (and escape, £873)
- There is a missing scheme from the London list. **Heathrow** has now been added, and features a fixed fee of **£400**, with an escape of **£1200**
- We have adjusted the escape fee for a number of London schemes as they were not properly rounded. The following fees are corrected to exactly three times the fixed fee:

Barking £980 (previously £981)  
Brent £954 (£955)  
Brentford £972 (£973)  
Bromley £924 (£925)  
Camberwell Green £957 (£956)  
Central London £1,035 (£1036)  
Clerkenwell / Hampstead £966 (£967)  
Ealing £1005 (£1006)  
Enfield £951 (£950)  
Harrow £957 (£956)  
Havering £891 (£890)  
Highbury Corner £1002 (£1003)  
Kingston-upon-Thames £996 (£997)  
Old Street £957 (£956)  
Redbridge £984 (£983)  
Richmond-upon-Thames £1050 (£1051)  
Tower Bridge £1017 (£1018)  
Uxbridge £921 (£922)  
Waltham Forest £894 (£893)  
West London £1029 (£1028)

- **A corrected version of Annex A has been published to the website**

#### VAT

- **All fees are inclusive of VAT**

## CDS6

- A version of the new CDS6 is now published to the Police Station Reforms section of the website. **Please note this is for information purposes only and the new form should not be used for claims until October 1<sup>st</sup> 2007.**
- The key difference is the inclusion of a new field to allow providers to enter their duty scheme code (or relevant scheme code where the matter is own client).
- We still require providers to enter the cash value against fields as under hourly rates. This will allow us to monitor the sensitivity of the fixed fees and take account of any significant changes on the ground that impact on provider delivery costs.
