

Procurement Plan for Haringey

Procurement Summary

1. Family Services

We intend to invite bids for **1,210** new matter starts (NMS) for the provision of face-to-face Family Advice within the procurement area (PA) of Haringey. There is currently a good level of access to Family services in the area and we anticipate that this will continue to be the case. Significant demand for public law services is evident in this PA and we consider that as these clients may require advice across a wide range of family issues we will advertise the tender as **Service Specification A**.

- Providers will be required to tender for and deliver both the full range of private Family work **and** public law children work.
- Providers will need to have a permanent presence in the PA.
- Providers will be required to tender for and undertake a minimum of **100** Legal Help cases per year and at least **5** public law certificates each year.

Providers who wish to undertake only work for children will be able to tender for a specialist children contract with no requirement to undertake the full range of family services.

2. Family & Housing (combined service)

We will set aside a small proportion of the available NMS in Housing for providers wishing to deliver a combined Housing and Family service.

We have seen some level of demand for this service within the procurement area. We will therefore make **300** NMS in Housing available for providers wishing to deliver a combined Housing and Family service.

Providers wishing to bid for this service combination will be required to tender for and undertake a minimum of **50** Legal Help matters in Housing per schedule year.

3. Social Welfare Law Services

We intend to invite bids for **2,000** NMS across the core Social Welfare Law (SWL) categories of Housing, Debt and Welfare Benefits advice, **130** in Community Care and **100** in Employment.

Access to services in this PA is currently good, but services in Debt are currently not as developed as those in Housing and Welfare Benefits. Therefore, to ensure continued access to the full range of services in SWL we

will invite tenders under **Service Specification A**, but with the minimum NMS requirement set at **50**.

Housing Welfare Benefits and Debt will be advertised together and providers will be required to bid for and provide services in all three categories.

- Providers may bid to deliver Housing, Debt and Welfare Benefits either as a single legal entity or as part of a consortium.
- Providers delivering Housing, Debt and Welfare Benefits will need to have a permanent presence in the PA
- Providers delivering Housing, Debt and Welfare Benefits will be required to undertake a minimum of **50** NMS in each category per schedule year.
- Providers delivering Community Care will be required to undertake a minimum of **20** NMS per schedule year.
- Providers delivering Employment will be required to undertake a minimum of **30** NMS per schedule year.
- Community Care and Employment providers will be required to have a part-time presence in the PA.
- As we will invite bids under **Service Specification A**, providers will be required to employ an authorised litigator in order to conduct Housing and/or Community Care services.

For Debt, Housing and Welfare Benefits, we will divide the available NMS for the PA between the three categories as follows:

PA	Debt	Housing	Welfare Benefits
Haringey	350	880	770

4. Access

There are no potential access issues within Haringey as the area is geographically small and good public transport links are available across the whole of the procurement area. Therefore no criteria will be used to select providers on the basis of their location within the area and providers will only be required to have a permanent presence within the PA.

5. Budget

Current spend in this area is lower than that which we would expect to spend in Family Legal Help according to the Indicative Spend Budget Model. Therefore, the total number of NMS available in this area will be increased to enable an increase in access to services which moves closer to that suggested by the Model.

Current spend in this area is higher than that which we would expect to spend in SWL services according to the Indicative Spend Budget Model. It is

therefore unlikely that we would wish to actively increase the provision of SWL services and matter starts will be carefully managed with the aim of remaining within the level of current spend.
